

## Fellowship Opportunity in Bipolar Research at Massachusetts General Hospital

The Dauten Family Center for Bipolar Treatment Innovation at Massachusetts General Hospital is pleased to offer a two-year training opportunity in bipolar disorder-focused clinical research and advanced clinical management.

Our objective is to train colleagues in clinical research who will become tomorrow's leaders in advancing treatments for bipolar illness and severe mood disorders. As a Fellow, you will assist in proof-of-concept clinical trials of both novel and repurposed therapeutic agents, PCORI-funded research on treatment outcomes, and big-data approaches to developing and validating treatment algorithms.

To be eligible, you must have successfully completed an ACGM accredited residency in adult psychiatry. Interested? Please email your CV to
